Figure 1 is a schematic diagram of a system architecture. It consists of several interconnected blocks. At the top, there is a block labeled "Match Time". A line connects "Match Time" to a block labeled "NOT CONNECTED". From "NOT CONNECTED", a line leads to a block labeled "Connect" (indicated by reference numeral 51). This "Connect" block is connected to a larger block labeled "Live Mode". Inside the "Live Mode" block, there are two sub-blocks: "Pause" and "Resume".

The diagram shows a flowchart for a soccer game. It starts with a box labeled "Off". An arrow points from "Off" to a large box labeled "EVENT". From "EVENT", an arrow points to a box labeled "SHOT". From "SHOT", an arrow points to a box labeled "GOAL". From "GOAL", an arrow points to a box labeled "CORNER". From "CORNER", an arrow points to a box labeled "DENY". From "DENY", an arrow points back to the "EVENT" box. To the right of the flowchart is a clock face labeled 65. The flowchart is labeled with numbers 53, 54, 55, 56, and 58.
